# Marchio Radaway

Il bagno è uno spazio dove inizia e finisce la giornata. Piccolo o grande, lungo o rettangolare, alto o inclinato - Radaway crea soluzioni comode e funzionali che ti permetteranno di esprimere il tuo stile. Di particolare importanza per noi è il box doccia. È un luogo dove si guadagna energia ogni mattina e ci si riposa la sera. Ecco perché i nostri ingegneri lavorano sui prodotti Radaway in modo che siano in linea con le ultime tendenze del mercato nonché funzionali.

Unendo le idee innovative con la bellezza delle forme, creiamo box doccia unici, belli e pratici. Con un approccio individuale per ciascuno dei nostri clienti, offriamo un utilizzo ottimale dello spazio disponibile. Muoversi e usare il bagno sarà sempre un piacere per te.

Vogliamo che il tuo bagno sia innovativo, per questo Radaway si preoccupa della modernizzazione dei prodotti, per offrirti nuove esperienze, tenendo conto di favorire il rapporto qualità-prezzo.

La qualità e la sicurezza sono le cose più importanti per noi, motivo per cui poniamo grande enfasi sul controllo della qualità nella fase di preparazione delle materie prime per la produzione e dei prodotti finiti. Ogni serie di prodotti viene controllata e testata su stazioni di ricerca, prima di lasciare il magazzino. Tutti i nostri box doccia sono dotati delle necessarie dichiarazioni di conformità e omologazioni richieste sul mercato europeo.

Offriamo il nostro supporto e servizio professionale in ogni fase della collaborazione, fornendo un servizio di garanzia, post-garanzia e disponibilità di pezzi di ricambio.

Se non riesci a trovare la misura adatta del box doccia nella nostra offerta standard, saremo lieti di adattarla alle tue esigenze.

# Varianti vetro

Per soddisfare le aspettative dei nostri clienti, abbiamo deciso di darvi la possibilità di ordinare box doccia in diverse varianti di vetro. Questo vale sia per le dimensioni standard che per quelle personalizzate.

## Sfida?

Elegante, ma con una nota romantica - questo è il modo in cui il cliente ha immaginato il suo bagno in soffitta. I bagni progettati in camere adatte (ex attico o soppalco) hanno un enorme vantaggio. In generale, sono più grandi di quelli "standard". La sfida più grande che una situazione simile ci pone di fronte è l'uso pratico delle inclinazioni del tetto e la combinazione tra funzionalità ed estetica.

## Soluzione!

Organizzare il bagno in soffitta richiede un lavoro di pianificazione ponderato. Va ricordato che la superficie della stanza non corrisponde poi allo spazio effettivo da sistemare. Al fine di adattare completamente l'area vicino alla parete, conviene utilizzarlo come un piccolo ripostiglio ad es. per prodotti per la pulizia o per il cesto della biancheria. In questo modo la parete divisoria può diventare parte integrante della zona doccia. I clienti hanno optato per il box doccia Euphoria KDJ, in cui la porta di vetro veniva tagliata in modo che si inserisse perfettamente sotto l'inclinazione del soffitto. Per guadagnare ulteriori centimetri, abbiamo ridotto il livello della doccia utilizzando la soluzione basata sul pannello doccia sottopavimento con canaletta di scolo. L'eliminazione del piatto doccia, oltre ai suoi vantaggi pratici, fornisce anche interessanti effetti visivi.
